

COVID-19 Policy/Update

National Consumer Title Insurance Company is closely monitoring the latest developments regarding COVID-19 and have taken appropriate steps to ensure the health and safety of our employees, business partners and consumers.

We know the decisions we make not only affect our employees and their families, but the communities where they live and work. To that end, we have implemented social distancing practices across the company. Many of our staff members are working remotely with at-home work stations that allow for network access and secure connections. We are following local, state and U.S. Centers for Disease Control and Prevention (CDC) guidelines and will continue to implement updates as more information about COVID-19 develops.

We have postponed or cancelled upcoming events, conferences or meetings and employees have been advised to avoid travel and to follow all local, state, federal and CDC guidelines regarding travel and Stay-At-Home orders.

We are actively monitoring the status of government recording offices to determine if office closures will impact the ability to record documents and have communicated underwriting guidelines related to the potential for delayed recordings.

We will update this policy as appropriate. National Consumer Title remains committed to ensuring the safety of our employees and those we serve.
